### Kent Stainless In Ground Power Units Dubai Opera House Dubai, UAE

<b>Client</b>	EMAAR
<b>Consultant</b>	Atkins
<b>Contractor</b>	BK Gulf LLC / Al Ghandi and CCC JV
<b>Product</b>	In Ground Power Units
<b>Quantity</b>	14 nos.

Dubai Opera is a 2,000-seat, multi-format, performing arts centre, which is located within The Opera District in Downtown Dubai. It was developed by Emaar Properties to host a variety of performances and events including theatre, opera, ballet, concerts, conferences and exhibitions.

We supplied In Ground Power Units (Manufactured by Kent Stainless) on year 2016. These units are recessed which makes them perfect for public realm areas. They also prevent cable clutter during the events.
