Case Study**

**Mmcite, bespoke street furniture
Dubai Water Canal Dubai, UAE**

Client	RTA
Consultant	AE7/Parsons
Contractor	Besix/ Tulipa Landscaping/Al Bayader
Product	Bespoke benches, litter bins, aluminium planters
Quantity	264 nos benches, 156 nos litter bins, 458 nos planters

The Dubai Water Canal is a 3.2km waterway between 80 and 120 meters wide that was built in a joint venture between RTA, Meydan and Meraas. The canal is an extension of Deira Creek connecting Business Bay with the Arabian Gulf. Both banks of the canals have boardwalks for pedestrians.

Bespoke benches (Manufactured by Mmcite from Czech Republic) have been designed to meet the specific requirements of the client when it comes to the design and material to be used in such environment. The mockup has been provided prior to the delivery.
