Case Study

Mmcite, Metalco, street furniture
Al Majran Corniche, RAK, UAE

Client	Al Marjan Corniche
Consultant	Parsons
Product	Benches, litter bins, bollards, bike racks
Quantity	42 nos benches, 18 nos triple litter bins, 50 nos bollards

Corniche work creates a 3km long pedestrian and cycling track along the waterfront of island off Ras Al Khaimah. The aim of this development is to promote active family life and healthy style of living near the waterside location.

Several European manufactures have been together to deliver unified design of the landscape. The benches, bollards are made of cast stone, the litter bins and the bike racks made of steel.
